

*WORLD SOCIETY FOR*  
*RECONSTRUCTIVE MICROSURGERY*

On behalf of WSRM, I would like to congratulate Dr. Alexandru Georgescu, the President of the European Federation of Societies for Microsurgery (EFSM), for organizing and hosting the next EFSM meeting in Romania. We are excited about the opportunity to co-organize the Pre-congress WSRM Symposium and we also strongly endorse the Pre-congress workshop on Perforator Flaps. I believe these will be great educational opportunities for all attendees.

It is my great honor to serve as the next President of WSRM for 2019-2021. WSRM has grown tremendously over the past 20 years thanks to hard work and leadership of previous leaders and our members. We once again had a very successful meeting at Bologna, Italy from June 12-15, 2019 with over 1600 participants from 65 Countries attending the meeting. I would like to congratulate and thank Congress Chairman Dr. Georgio DeSantis and Scientific Program Chair Dr. Marco Innocenti for endless hard work and leadership for organizing a very successful meeting..

The future of our field depends on our younger generation of reconstructive surgeons. We need to create opportunities for leadership experience and to help develop young members into future leaders of the organization. It is important for us to continue to collaborate with regional and local organizations such as EFSM, and to look for new opportunities to advance the art and science of microsurgery and complex reconstruction.

Please join us for our next WSRM meeting in beautiful Cancun, Mexico from June 9-12, 2021. Dr. Eric Santamaria and the Co-Chairs of Program Committee, Drs. Javier Lopez and Alex Cardenas are already working hard to make this the best WSRM meeting ever.

Sincerely,

David W Chang

WSRM President, 2019-2021
